Yeah

Really do this shit on auto, booted off Gelato
Really do this shit on auto, booted off Gelato

Really do this shit on auto, booted off Gelato (You have no heart)

Green laser on the Glock, lil' nigga clutchin' a Palo
Green pockets full of guap

I need my money, not your problems

I walk in the function and these lil' niggas followin' me

White girl in the back doin' coke, Demi Levato, she hate when I call her that

Young jaydes too locked in

Niggas wanna pull me out, told the opps, "Suck my dick"

Still left with a frown though 'cause I can't even trust my clique

I know she gon' let me down, but I'm still getting high with this bitch

(I know she gon' let me down)
