

## migraine

jaydes

I just got a migraine from soft whispers in my head (In my head  
)  
Now there's nothing that I wanted, I'm just left here, unimpressed  
(Yeah I am unimpressed)  
Took advantage of my kindness and left me a fuckin' mess  
Crawling deep inside my skin, I tried concealing all my flesh  
I know you know (I know you know)  
You're wasting my time (You're wasting my time)  
I know you know, you're wasting my time  
(It makes my head ache)
