

(You have no heart!)

Yeah, why you toying with my fuckin' brain? Woah  
All these other girls are not the same, woah-oh  
All these women borin' me  
They can't love you like I do, why are you ignorin' me? Yeah  
(Silo killed this shit)

I might spend my racks now just to fill the void, yeah  
Everybody's watchin', gas got me exhausted  
Thought I had your heart but I guess I really lost it (Yeah, ye  
ah, yeah, yeah)

I be in that brand-new Benz  
I be high like Peter Pan  
She said since I'm on her playlist  
That she might just bring a friend  
Only hear my money countin'  
Don't really care about yo' comments  
Got a problem with my clique?  
Then best believe that we gon' solve it

Yeah, why you toying with my fuckin' brain? Woah
