

## Froggy 2

JayKae

They never expected this  
Pulling up in electric whips, expensive shit  
Got 19 with extended clips

Not my team but we'll end your shit  
100 pants in a rented crib  
Blud you're a drip if you mention drip  
Bossman's back with apprenticeships  
Born and raised in the ends I'm in  
You better watch out for the friends I'm with  
Man don't care about sentences  
Pull up in main entrances  
You can check all of my references  
Hit man like it was fencing ribs  
Still on my independent shit  
No life sense in rented whips  
Them man don't set trends they stick  
'Cause they got no grip  
Holding your bag but you got no stick  
That shit there get your combo quick  
Ain't coming home let you mum know quick  
Let 'em all know that I'm not no prick  
This thing [?]

And my people I'm on no cliff  
Don't know where you've been don't want no spliff  
But I roll my own  
Hold my own  
Bossman's back in a home I own  
Love my weed so I grow my own  
Don't DM me and don't phone my phone  
Yeah what about them  
What about us  
10 years they ain't forgot about us  
18 [?] if it's not about us  
Yeah if they're feeling froggy then tell them leap

Who's running our city?  
Who's got the ting pon lock right now in our city  
Who chose to quit and who makes pounds in our city  
We know we know  
Over the years we've seen them come and go  
We don't play unless we're playing for kips  
These suckers don't know how to succeed  
Say it with your chest or don't speak  
If you're feeling froggy then leap

Yo, they never expected this like winning in [?]  
It was either graft or gravel  
Can't be an author and not write novels  
Found myself in the deep end in my CP goggles  
But didn't [?]  
So now we pop bottles  
We're loving the crew  
Fuck one day let's celebrate two

Feels like Mario when he gets a super mushroom

Can't drink tea with man that sip tea  
And can't break bread with loafers that snooze  
Had broke days but had to break through  
Reminded myself that I'm living the brum life  
And I'm on grime from sun down to sun rise  
Now I feel over the moon I'm like no say I...  
Yo still had my old girls
