

Who's running our city?  
Who's got the ting pon lock right now in our city  
We know we know  
And who's repping our city?  
Who talks the talk and who walks the walk in our city  
We know we knooow  
What about them?  
If you're feeling froggy then leap  
If you're feeling froggy then leeeaaaap

They never expected this what the bossman is back  
I was chilling for a bit now I've got to react  
I got fans telling me they was locked with my dad  
It's time to go in now, not to relax  
I think breaktime's over  
Damm right, I felt froggy so I got on the track  
It's time to throw down couple crops in the flats  
Smoking weed in the back of the whip with the windows down so I'm covered in ash  
Thanking God I'm not one of those kids who was held back in life just because of his past  
Can you imagine that? I must be going mad in fact  
The grime scene's over here right now and don't let them know when they can have it back  
I got 300, 000 views in a month  
Can't tell me shit, man, I do what I want  
Miss passing my nigga twos on a blunt  
When Depzman died, I realised who was a cunt  
2Real, do you want to leap?, Do you want to jump?  
Right now I'm with music-man but I still show man what to do with a pot  
Trust me don't say a word  
Jaykae's spoken I hope that you're bird  
Don't lie about things if you know they occurred  
Cah we don't respect that shit  
If I ain't with my fam then I'm with my fam  
Just know that I can't be stopped  
Them man are praying for fame and fortune while I'm just praying I don't get locked  
You know like that

They never expected this like a black man driving a black cab  
I'm in the driving seat they're at the back fam  
I've got my city on my back fam  
It planned out never planned it  
Man stand out by being outstanding  
Woah, I'm living the brum life I'm on grime from sundown to sunrise  
So don't say a word

I had my old girl stressing my new girl I had to have a word  
The word's getting round that man are getting round so I get what I want out  
of a word  
Put Dapz On The Map on a verse since I rap like I slowed down the track when  
I spat  
Man run the road  
About being 'road'  
The only thing you're running is laps  
Me and my niggas be the public figures that win  
Run the town without having to sprint  
I treat every day like the 29th of Feb  
Brum town celeb  
I write tunes while others write tweets  
I dream big while others just sleep  
[?] feel froggy when I leap like Kermit the frog, ribbit  
Still got some of that '09 spirit  
Just more calm and calculated with it  
I'll spin an MC, then have the DJ spin it  
Then spin it back  
If I ain't with my brothers then I'm with my brothers  
Everyone's got everyone's back  
Them man are dying to know how we're living  
Hating how everyone's loving off man  
You know like that
