

Headache

JayKae

'Cause man like jaykae where have you been?

'Cause man like jaykae where have you been?

So first thing's first

Let me start by saying yo RIP to my G's and love to the ones they left

I need to stop living my life like say I've got one day left

I don't smoke when my mum ain't stressed

Don't catch me on the wrong day vexed

And trust me I don't care what they say cus' they don't know Jay like Kanye West

So watch his throne now, watch his space

You'll soon see my pull up in a new shape

Can't get surrounded by blue tape

Need to get outta' here before its too late

I should pull up on certain man that are too fake

But I probably won't for my yout's sake

I need to board flights with my suitcase

Girls get pulled like my shoelace

I don't care who hates

Fam that's your objective

Ban phone calls ignore the texts

Me don't care what a next mans on but it's my lifestyle that you're obsessed with

Middle finger to all my exes

Show them straight to the door the exit

If somebody ever kicks you down better get back up till you're respected

Trust me

Yeah man I got a son now so I'm more protective

Let me see it from your perspective

Fam are you sure you get this?

And yo blood this is Brum town not Beirut

How many mandem are gonna stay true?

Like who?

Yeah man couple day ones have been hating ever since day 2

Better move

Trust me they ain't got a clue

Don't mix the old with the new

Allow' that crew

Never say T R U

Ain't worth the shit on my shoe

Ain't worth the piss on the seat

Put this on repeat

Yo I do this ting for the kids on the street

I can make quids when I speak

So why do you think I make hits when I speak

Bare pricks try know this

I roll up anywhere and I don't care where I flick my roaches

I'm a bit para right now is it me or is it Cannabis psychosis

And I had to watch my cousin die so fuck Cystic Fibrosis

Now my heads fucked like Mitosis

Now my heads fucked while I wrote this

Trophies

Blood I might put a crop in Sophie's

I wake up looking for cash rudeboy, I don't wake up looking for motives

I've grown up now haven't you noticed?

I fixed up now I'm ready for showbiz

Yeah I do what the fuck I want fam I got the power now didn't you notice?
