

Under the fence and over the hill
We're gone and we are standing, standing still
Like oceans of glass, dead birds on the road
My mind is tired and on overload
Dance with me darlin', it's 2010
A new year all over, a new year again
The turnin' of seasons, passin' of time
Dance with me darlin', this hill, it's hard to climb

I for one am happy just to be alive
I for one am grateful we are seeing eye to eye to eye to eye
