Distraction

Jaymes Young

I can't get these images out of my head
I've been waking up in cold sweat
Horror in the middle of my bed
These nightmares come and go
I want you to know
It should have been me

Falling asleep next to you
Oh, with my dreams next to you
Falling asleep next to you
It should of been me next to you

Touching you
I can't believe you let him in your room
I can't stop dreaming about it
These nightmares come and go
I want you to know
It should have been me

Falling asleep next to you
Oh, with my dreams next to you
Falling asleep next to you
It should of been me next to you

It should of been me sleeping next to you [x3]
