You got my, got my, got my, got my best interest
The way you got my eyes up on ya body, put the y in sex
Oh-oh-oh, when you show me skills that you can do
Arch up ya ting, girl, I'll be gentle with you now
If all you had was a likkle piece of me
If all you had was a likkle piece of me (Of me, of me)

Oh, my mind's complicated
Seven nights been faded
My mind's been racing
I'm still debating
If my mind's complicated
Seven nights been faded
My mind been racing
Tonight ain't basic

Swing low
Sweetie, carry go
Take man where mi nuh know
What would I be without you
Swing low
Sweetie try me, oh
Just like me and you know
Thinking bout taking it slow

Llelani, baby
You so fine, you pretty
Make my mind so silly
Bring on the party, baby
Can't let no one near she
She my chocolate Hershey (Hershey)
I know you better when you off alcohol
You like to talk too much
Oh girl, you say it all
Sometimes you're mad rude
But girl, I can't mad you
I got one thing that you can't replace at all

Oh, my mind's complicated
Seven nights been faded
My mind's been racing
I'm still debating
If my mind's complicated
Seven nights been faded
My mind been racing
Tonight ain't basic

Say I'm interested
Got my best interest in you
Say I'm interested
Got my best interest in you
Say I'm interested
Got my best interest in you
Say I'm interested

Got my best interest in you
