

Introduce

JayO

You say you get problem
I just wanna know your problems
Maybe I can solve them
I can be your conscious
Make I give you options
Prada bae or you Gucci girl yeah
I'm only tryna rock your world yeah
But you say you don't know 'cause you hurting
Where my mind dey I just wan insert in
Kiss and caress put work in
Wan give you love no lust thing
No lust thing yeah

Allow me to introduce myself
Like say you should introduce as well
Baby I'm here to do you well
I won't go run and kiss and tell
Allow me to introduce myself
Like say you should introduce as well
Baby I'm here to do you well
I won't go run and kiss and tell

Tell me why
Do these tings cross your mind
My little miss you're so sweet
Could hold ya closely
Never could I let a nigga take you from me
You know what I mean
Spontaneous
Love the way you blush
You got angel dust
What you saying for us
Is it a thing
Or I gotta let it go

So say to me ohh
And don't lie
Say every little ting that you say baby
Or have it your way
Tell me why you don't understand my love
My lady
(Tell me say)
Say wetin you wan do without my love
(My love, my love, my love, my love)

Allow me to introduce myself
Like say you should introduce as well
Baby I'm here to do you well
I won't go run and kiss and tell
Allow me to introduce myself
Like say you should introduce as well
Baby I'm here to do you well
I won't go run and kiss and tell

And don't lie
Never could I let a nigga take you from me
