

# Obsessed

JayO

Now what you sayin' Q?

Must have been your pretty face in a museum  
Sweet like sugar cane, girl, how do you do it?  
You can make niggas go crazy without viewin'  
Testin' my patience, how 'bout I test you?  
Say girl, I'm testin' you, you got you  
Say be honest, don't get it confused  
Know this island better with you  
Know everything looks better with you

Girl, say your silhouette, shape real innocent  
Make me wanna intercept (You, baby)  
Everything that you wanna do (Do, baby)  
Better if I put it on you (You, baby)  
Girl, say you got intellect  
Smart and dilligent  
Way you move innocent, got me thinkin' things again  
If I put it on you, might not get it confused

I'm obsessed with you, only you  
You got something that you do, do to me  
Only you, girl, you're trouble it ain't new  
I'm obsessed with you, only you  
You got something that you do, do to me  
See what obsessions can do, you see?  
Everything better when it's you and me

Wan' caress your body 'til your soul complete  
You wonder why I never put my phone on DND  
You say if I'm obsessed then you can text me, tease me, that's easy, babe  
If what you want ain't me, must be a lie  
Wanna touch your neck and take your body through the night  
Covered in Louis, baby, Louis what I like  
If your mind dey pon me, baby girl, see me tonight

Girl, say your silhouette, shape real innocent  
Make me wanna intercept  
Everything that you wanna do (That you wanna do)  
Better if I put it on you  
Girl, say you got intellect  
Smart and dilligent  
Way you move innocent, got me thinkin' things again  
If I put it on you, might not get it confused

I'm obsessed with you, only you  
You got something that you do, do to me  
Only you, girl, you're trouble it ain't new  
I'm obsessed with you, only you  
You got something that you do, do to me  
See what obsessions can do, you see?  
Everything better when it's you and me

Your silhouette, shape real innocent  
Make me wanna intercept  
Everything that you wanna do  
Better if I put it on you, yeah

Girl, say you got intellect  
Smart and dilligent  
Way you move innocent, got me thinkin' things again
