

Red Light

JayO

Putting all my trust in you for the night
Giving all my love to you and I
Is this what it does to you in the night
Got me judging you
Like you was made for you and you only
You hide your face shy away, show me
See exactly how you feel
Is exactly how I feel

Wid ya tight dress on
It's all for show
Me verse ya
Going toe to toe
How did we get here
I don't know
You ain't got no bad vibe
But you gon make mine
All over the place
All over your waist
Command you and tell you to repeat
Me verse ya
Going toe to toe
How did we get here
I don't know

We passed the red light
From drinking on red wine
Mind you
Mind you
Say
We went from party after party
Talking after talking
Made you feel important
To make you feel important
Ooh

Way your nails grip on my face
Anytime and any place
Kiss me
Body to body you and me
Pinky promise I'm never telling nobody
How you get your legs
All the way behind
How you into red
But you're not into white
Clutching on the gear
But clutching on your tight
Running through your hair
All the way down to your spine

Wid ya tight dress on
It's all for show
Me verse ya
Going toe to toe
How did we get here
I don't know
You ain't got no bad vibe

But you gon make mine
All over the place
All over your waist
Command you and tell you to repeat
Me verse ya
Going toe to toe
How did we get here
I don't know

We passed the red light
From drinking on red wine
Mind you
Mind you
Say
We went from party after party
Talking after talking
Made you feel important
To make you feel important
Ooh

We passed the red light
From drinking on red wine
Mind you
Mind you
Say
We went from party after party
Talking after talking
Made you feel important
To make you feel important
