Suns out
Guns out, buns out
See the way ya wylin', girl, you better say what ya on now
Say you want a bite, persuade me
Said she's a 90s baby
Know I gotta ting for ladies
Know you won't ever get confused
Why there's always eyes on you?
Mini skirt look short on you
On you, on you
Sexy, all eyes on you
Got thighs for days, fi true
Waist eight and attitude
Catch me if you can do

The way you get down you think mans just gonna let you jet off
Girl, say ya body hot pressure
Mmm, girl, you raise my antenna
Tell me a girl who do better
Way she look good in Margiela
Wonder if I see better or no?
Better or no, better or no

Tattoo on her back, so mi see it when I'm inside
She nuh leave in the night 'cause in the morning she's on demon timing
Pink notes, like how her pussy pink
Think loads about how you think
Want more in ya life, it's a constant thing

Suns out
Guns out, buns out
See the way ya wylin', girl, you better say what ya on now
Say you want a bite, persuade me
Said she's a 90s baby

On you, on you
Sexy, all eyes on you

Weed and grabba get you in ya mood and ting
She nuh need no man because she independent
Covered in
Diamonds her pendants
With her

Addiction
Of hoping in Benzes
Calling her cute but pretty offensive
