

## Function

Jazz Cartier

Come slide at the function  
You and all your girls finna dance all night  
Come slide at the function  
Don't ask if it's lit, girl you know what it is, no time for assumptions  
Baby I'm high on life right now but a nigga need substance yeah  
Too much textin', we need to be touchin', slide at the function, ay

You know I don't this for anybody  
Luckily you just ain't anybody  
A beauty like you must got plenty options  
Baby is you with the Henny?  
Regarless what it is, you know I'm bein' honest (bein' honest)  
I've never broken a pinky promise  
I don't get caught up in any drama  
And you the solution to any problem, yeah  
To any problem, that's how you know you a boss (know you a boss)  
We can cook up a win from a loss (win from a loss)  
And we nothing like Rachel and Ross  
Nah, we more like Martin and Gina  
Crazy in love like Seth and Lovita  
I let you call but it's hard to hear you off the speakers  
I'll send you the rest when I see you

Come slide at the function

Ay, I'm willin' to put in the work  
Don't put the car in reverse  
You don't gotta show me your worth  
You's a diamond in the rough, yeah  
I can tell you had enough, ay  
All these niggas run the same game  
I see you callin' their bluff but you never givin' too much  
You ain't impressed by a Gucci bag  
You rather just chill and bump Gucci Mane  
Call up in sick and watch Pootie Tang  
Honestly I'd like to do the same (yeah)  
For now I'ma sip on this juice, waitin' for you to come through  
Don't wanna hear no excuse, the spot in the hills without you  
So I'll wait 'til you make the move

As long as you keep me close  
I'll be there to find you, I'll be right beside you  
You can let your feelings show, I'm not here to judge you  
I just wanna love you so baby won't you-

Come slide at the function
