

Right Now

Jazz Cartier

This is a KTOE beat

Right now, I just (I just)
Want you (want you), right now (right now)
Right now, I just (I just)
Want you, right now
Right now, I just (I just)
Want you (want you), right now (right now)
Right now, I just (I just)
Want you, right now

Nize it, pipe down
I'm shinin', no lighthouse
You last week, I'm right now
I'm up late, no night owl (no)
My shawty, she naughty (she naughty)
I put her on timeout (sit)
Go OT, she fly out (she fly to me)
She DC, no White House
I walk in, she lie down
I Gucci'd my lifestyle
I'm on road, no hideout
In High Park is my house
The Lambo raise eyebrows
Do donuts, don't wipe out
I need you right now
No dress, no nightgown (yeah)

Right now, I just (I just)
Want you (want you), right now (right now)
Right now, I just (I just)
Want you, right now
Right now, I just (I just)
Want you (want you), right now (right now)
Right now, I just (I just)
Want you, right now

I'm up now, just face it (yeah)
I'm joggin', you racin' (joggin')
You testin' my patience
Just send me location (aw, yeah)
Got a Pisces, she the nicest (she the nicest)
And I only get to see her when the night shift (on the night shift)
My wrist too hot, I iced it (I iced it out)
Can't knock if you ain't tried it'
Cameras flash (flash)
See what you can catch
She lookin' back, we ain't livin' in the past
Somebody turn these lights (down)
Take control and bite (down)
She ain't playin' nice
'Cause she need me like right now

Right now, I just (I just)
Want you (want you), right now (right now)
Right now, I just (I just)
Want you, right now

Right now, I just (I just)
Want you (want you), right now (right now)
Right now, I just (I just)
Want you, right now
Right now, I just (I just)
Want you (want you), right now (right now)
Right now, I just (I just)
Want you, right now
Right now, I just (I just)
Want you (want you), right now (right now)
Right now, I just (I just)
Want you, right now
