

# Empty Promises

Promises

So if you're down for the ride, you'll want the darkness and light  
I'll take your low to a high  
All day and night  
No need to say it out loud, unless you mean every sound  
Don't be out running your mouth  
Keep it low, keep it down

Making prom, making prom, breaking promises  
Making prom, making prom, breaking prom, breaking promises  
Making prom, making prom, breaking promises  
Making prom, making prom, breaking prom-

So don't you make no empty promises  
And don't you play those cards close to your chest  
Maybe that's the way you fake that innocence  
No need to go deep, it's not working on me

Making prom, making prom (Oh), breaking promises (Oh)  
Making prom, making prom (Oh), breaking prom, breaking promises  
Making prom, making prom (Oh), breaking promises (Oh)  
Making prom, making prom (Oh), breaking prom, breaking promises  
Promises

You say my name in your sleep  
I'm playing games with your dreams  
And you got me on repeat (Yeah)  
So quit your lying for now, unless you mean every sound  
Don't be out running your mouth  
Keep it low, keep it down  
Tell me there'd be diamonds in the dark  
But there ain't nothing true about you from the start  
Tell me you could give me what I want (No)  
What I want (No, oh-oh)

So don't you make no empty promises  
And don't you play those cards close to your chest  
Maybe that's the way you fake that innocence  
No need to go deep (No), it's not working on me (No)

Making prom, making prom (Oh), breaking promises (Oh)  
Making prom, making prom (Oh), breaking prom, breaking promises  
Making prom, making prom (Oh), breaking promises (Oh)  
Making prom, making prom (Oh), breaking prom, breaking promises

Oh-oh  
Breaking promises  
Oh-oh  
Breaking promises  
Oh-oh  
Breaking promises  
Oh-oh  
Empty promises
