Jazzy

Go and live your life, you got fire in your eyes  
There's somethin' in your system, makes us come alive  
We get caught up in the rhythm, in it for the night, all rise

'Cause I need your love, I need it now  
Won't you show me, show me how  
To be free in myself  
I don't wanna ask for no more help

I need somethin', that beat pumpin'  
Party jumpin', my girl struttin'  
Bodies touchin' bodies  
That energy, that's what I need, woah-oh

Gimme all your, all your energy  
Gimme all your, all your energy  
Gimme all your, all your energy  
Gimme all your, all your energy

Let the motion circulate, the feelings percolate  
You came here on a mission, don't you hesitate  
Get caught up in the rhythm, we gon' stay awake all night

'Cause I need your love, I need it now  
Won't you show me, show me how  
To be free in myself  
I don't wanna ask for no more help

I need somethin', that beat pumpin'  
Party jumpin', my girl struttin'  
Bodies touchin' bodies  
That energy, that's what I need, woah  
I need somethin', that beat pumpin'  
Party jumpin', my girl struttin'  
Bodies touchin' bodies  
That energy, that's what I need, woah-oh

Gimme all your, all your energy  
Gimme all your, all your energy  
Gimme all your, all your energy  
Gimme all your, all your energy
