

Stardust

Jazzy

Oh man, you got me dancing on stardust, on stardust
No plan but damn, they'll be talking about us, about us

Da-da-da-da-da-da, da-da-da-da
Da-da-da-da-da-da, da-da-da-da
Da-da-da-da-da-da, da-da-da-da
Da-da-da-da-da-da, da-da-da-da

Nobody puts baby in the corner
Don't want no bad energy, don't mess up my vibes
My body moving just like water
She's like a sweet remedy, all sugar and spice
The feeling is coming
My body is making conversation with all of the lights
The way that I'm falling
And all that I see is constellations stuck in my mind

Oh man, you got me dancing on stardust, on stardust
No plan but damn, they'll be talking about us, about us
In the moment, we are holding all the things that make us alive
Oh man, you got me dancing on stardust, on stardust

Da-da-da-da-da-da, da-da-da-da
Da-da-da-da-da-da, da-da-da-da
Da-da-da-da-da-da, da-da-da-da
Da-da-da-da-da-da, da-da-da-da

And in the night, I'll be waiting for ya
Just like the moon and the stars all light up the sky
My love will never ever stop burning for ya
And you'll see what I see if you open your eyes
I'm never on my own, my own
Whenever life gets hard, I know you're there
I'm never on my own, my own
I feel you near me, I-I feel you near me

Oh man, you
Keep dancing
On stardust
Oh man, you keep dancing on stardust, on stardust

Oh man, you got me dancing on stardust, on stardust
No plan but damn, they'll be talking about us, about us
In the moment, we are holding all the things that make us alive
Oh man, you got me dancing on stardust, on stardust
