Tell me what you're
You don't feel the same
Tell me what you're thinking
You don't feel the same

Tell me what you're
You don't feel the same
Tell me what you're thinking
You don't feel, you don't feel

I fell in love with the girl that you was before
I ain't in love with the girl you became
You were the one that changed on me
I don't know why it's me that you're giving the blame

I changed on who, what, where?
I saw your game and I disappeared
I really don't hate you, just wanna thank you
Saw you for you, now I'm going clear

I fell in love with the girl that you was before
I ain't in love with the girl you became
You were the one that changed on me
I don't know why it's me that you're giving the blame

I changed on who, what, where?
I saw your game and I disappeared
I really don't hate you, just wanna thank you
Saw you for you, now I'm going clear

Never thought 'bout letting you go
I ain't gonna lie cah the feeling hurts
Heard that you're getting with someone else
I wish you the best, I hope it works
And it could've been you and I
It's crazy how the tables turned
I hate when he has you smilin' cah
I was the one that was doin' it first

We never saw eye to eye
'Cause you made me a promise, you lied
I took you back, even held you down
Now I'm scarred from the pains that have torn us apart
They say that our future's clear
Right now I ain't seeing it well
I'm stuck with the image of you and I
We could've been well, we could've been fine

If I wanted you back, would you label me toxic?
It's a mistake that we locked it

Know how you are with the girls
So trust me
Don't really want this
I just want nothing

First time we met, when I shot my shot
I was hoping you wouldn't've blocked it

The girls, they warned me
Didn't wanna listen
Should've just heard and stopped it

I fell in love with the girl that you was before
I ain't in love with the girl you became
You were the one that changed on me
I don't know why it's me that you're giving the blame

I changed on who, what, where?
I saw your game and I disappeared
I really don't hate you, just wanna thank you
Saw you for you, now I'm going clear

I fell in love with the girl that you was before
I ain't in love with the girl you became
You were the one that changed on me
I don't know why it's me that you're giving the blame

I changed on who, what, where?
I saw your game and I disappeared
I really don't hate you, just wanna thank you
Saw you for you, now I'm going clear

Had an epiphany
I wish we could figure things
I love too hard
Now I'm missing this
Missing us
Missing things
If time goes back, are fixing shit?
Or walking away from this misery?
I wish you the best, you're not switching things
Onto the next, onto bigger things

It's mad how you're leaving man in the past
HBK cah you broke my heart
And I chose to give you my all
When you weren't even giving half
I clocked that you struggled to play your part
Show me love, is it really that hard?
And I'm missing the way you wine
Cah your body a work of art

I fell in love with the girl that you was before
I ain't in love with the girl you became
You were the one that changed on me
I don't know why it's me that you're giving the blame

I changed on who, what, where?
I saw your game and I disappeared
I really don't hate you, just wanna thank you
Saw you for you, now I'm going clear

I fell in love with the girl that you was before
I ain't in love with the girl you became
You were the one that changed on me
I don't know why it's me that you're giving the blame

I changed on who, what, where?
I saw your game and I disappeared
I really don't hate you, just wanna thank you
Saw you for you, now I'm going clear

Tell me what you're
You don't feel the same
Tell me what you're thinking
You don't feel the same

Tell me what you're
You don't feel the same
Tell me what you're thinking
You don't feel
