

Deja Vu

JBEE

I turned ghost
When I could've went platinum
So I'm putting in work all year
Can't wait till I cop me the double r phantom
G63 for my home girl too
And a lambo truck for gangnem
Free bro off the landing
When I'm done with the jugg
I'll be sat by the beach with a 10
While pour me magnum

Fuck being broke on the block
So I'm stuck in the booth
Tryna find me a way
Before rap I never went Gatwick
So I soon take trips on a private J
I told a hoe from the block bruk
But I lied I'm paid
Wanna know if she love me for me
Had me stuck in a talking stage
Tryna hide I'm bait

I'm going through loads
I pray that I make it through
And this shits way deeper than rap
More time it's a picture I'm painting too
And these hoes ain't got my back
Atleast I know, I know my homies do
And I feel like I've been here before
Yh, yh Deja Vu

I'm going through loads
I pray that I make it through
And this shits way deeper than rap
More time it's a picture I'm painting too
And these hoes ain't got my back
Atleast I know, I know my homies do
And I feel like I've been here before
Yh, yh Deja Vu

I hate being open I'm hiding my pain
But them 20s and 50s
Wrap in elastic bands
Might keep me sane
I need a GMT, all black maybach
And a VV chain
But dream way further than that
I've been ducking from evil eye
So I keep to myself all my goals and aims

Marj thinks I've changed
My mental states on a deep decline
I wish talk to the fam
But the papes in my acc
Got me beefing mine
See I know I ain't good
But I find it easier saying I'm fine

Fuck opening up
They'll use it against you one at a time

I'm going through loads
I pray that I make it through
And this shits way deeper than rap
More time it's a picture I'm painting too
And these hoes ain't got my back
Atleast I know, I know my homies do
And I feel like I've been here before
Yh, yh Deja Vu

I'm going through loads
I pray that I make it through
And this shits way deeper than rap
More time it's a picture I'm painting too
And these hoes ain't got my back
Atleast I know, I know my homies do
And I feel like I've been here before
Yh, yh Deja Vu
