

With Me Or Not?

JBEE

I love you Benji, haha
I wanna know if they're with me or not (Huh)
Gotta watch who I call my friends
They been plottin' to take my spot

Me and the mandem have come a long way
We used to do trap and F in college
I was shottin' eight balls in the school playground
When I should of kicked ball like Sturridge
Doing things that I weren't proud of
Fake friends were the ones that gave me courage
They weren't there when I needed a helping hand
And things went South like Dulwich (On my life)
It's not easy being a guy in the public eye
I keep myself to myself
I try not to share too much when I post online
And I'm D.T.B., right 'til the day I die (Huh)
Only time I'ma take girls in
If it's Tennessee, Ruby Rose, or Snoochie Shy
Watch who you call your mate (Huh)
Gotta watch what I post online
I don't wanna get done like Andrew Tate
And I'm wearin' a mask
When I fly uptown with a babe 'cause the kids too bait
And I'm guessing it gets that way
Post the location after we're gone
Like Cench, I don't wanna get caught on dates

I wanna know if they're with me or not (Huh)
Gotta watch who I call my friends
They been plottin' to take my spot
Look, getting dragged down by your own people
It's not easy stayin' on top
It's only now that I see these thots
They've been asking me how I've been
I can say that I'm good, but I'm really not

I can't talk 'bout the way that I feel inside
I got hurt by a bitch
Imagine, she was blamin' the way that the stars are aligned
I done said, I was way too kind (Huh)
Lately, I've been losin' track, I've been feelin' behind
I took a vacation off the grind
But I swear, I'ma catch up in perfect time
See, it's way too cold on my block
So I bought be a Canada Goose (Ah)
Struggled to pay them bills back then
Now it's minimum eight on my brand-new shoes
I was the one that they wanted to lose
Now I'm up, gotta watch what I say or do
Fall in love with a low-key girl or a Insta babe
I don't know what to choose

I wanna know if they're with me or not (Huh)
Gotta watch who I call my friends
They been plottin' to take my spot
Look, getting dragged down by your own people

It's not easy stayin' on top
It's only now that I see these thots
They've been asking me how I've been
I can say that I'm good, but I'm really not
I wanna know if they're with me or not (Huh)

It's not easy stayin' on top
