You and me
On a moonlit night, I wanna look at the sky together
You and me
Your eyes look like they have a lot to tell me
Close those eyes
Open your lips to me, tell me like magic, baby
If you wanna love with me
Come closer and shine on me baby

You already know about me
You know that I just
Feel the same way as you
You already know about me
You know that I just
Feel the same way as you

In the darkness
You're the only bright light
You're like moonlight, moonlight, this place
I can't stop my feeling
Only you and me, light and dark
No one else like you
No one else is a woman to me but you

Will you tell me on a moonlit night?
Baby love me love me baby
Will you come into my arms?
Baby love me love me baby

I'll protect you from the darkness
Baby love me love me baby
No one else like you
No one else is a woman to me but you, baby

I'm talking about
You saw the wolfish instincts in me
The person who calls me tonight is you
No point in running away, it'll be hot if I catch you
If I catch you, I can't promise anything, just defend yourself

When the moon pulls me at night
Your face comes into my heart like waves
I'm burning up so I set sail to a small boat
Putting my heart in this melody

You already know about me
You know that I just
Feel the same way as you
You already know about me
You know that I just
Feel the same way as you

Will you tell me on a moonlit night?
Baby love me love me baby
Will you come into my arms?
Baby love me love me baby

I'll protect you from the darkness
Baby love me love me baby
No one else like you
No one else is a woman to me but you, baby

My head my head is all about you
Your dream came into my head
I close my eyes but you still rise like the moon
Like a shooting star, you came into my arms

You're too beautiful, it's not fair
So many wolves around you
But we'll be holding hands tonight
We'll be doing something more meaningful
So underneath the moon tonight, I'll go awoooo

Will you tell me on a moonlit night?
Baby love me love me baby
Will you come into my arms?
Baby love me love me baby

I'll protect you from the darkness
Baby love me love me baby
(Baby love me love me, love me love me)
No one else like you
No one else is a woman to me but you, baby
