I'll be standing next to you, wherever you are
If you want, I'll give you a diamond ring
Let's grow old together, I'll count your white hairs

We still don't really know each other
But who cares? We're still young
Let's just do it, if you don't like it, you can return me
I like making these kinds of jokes
Then you look at me incredulously
But the way you look at me makes my heart drop
I'm not overdoing it, I'm serious

If I'm Davy Jones, you're Calypso
I'll show you everything, even my heart
We look good together, it's a little awkward
Because it's you, okay, you already know

So baby, give it to me
Don't waste time, give it to me

I know
You already like me
3 2 1 let's go

From today on, will you be my girl?
I'll be standing next to you, wherever you are
If you want, I'll give you a diamond ring
Let's grow old together, I'll count your white hairs

I won't change even after time
Trust me
I hope you'll be my girl
'Cause you're the only one for me

From today on, will you be my girl?
I'll be standing next to you, wherever you are
If you want, I'll give you a diamond ring
Let's grow old together, I'll count your white hairs

Baby come ride with me (Holla)
