

Pick Up Your Phone

JC Stewart

Am I lookin' for a light that's, that's just not on? That's just not there?

Am I lookin' lover in the arms of someone new? Don't care

Am I lookin' for a future when there might not even be a now?

Am I tryin' to buy a house that's gonna burn down?

Just tell me what it is, what it's not

Just tell me, are we on? Are we off?

'Cause falling for you's always such a long way down

You're drinkin' and it's real late at night

That's when you're good at changing your mind

But if we're better off alone

Why did you pick up your phone?

Why did you pick up your phone?

Is it love? Is it strange that I can feel the danger

If we leave it in-between?

Are we lost? Are we fine? Don't wanna wait around

Matches, meet the gasoline

Tryin' to go, tryin' to stay

We're gettin' nowhere goin' both ways

So tired of the guessin'

Just tell me what it is, what it's not

Just tell me, are we on? Are we off?

'Cause falling for you's always such a long way down

You're drinkin' and it's real at night

That's when you're good at changing your mind

But if we're better off alone

Why did you pick up your phone?

Why did you pick up your phone?

So just tell me what it is, what it's not

Just tell me, are we on? Are we off?

'Cause falling for you's always such a long way down

You're drinkin' and it's real late at night

That's when you're good at changing your mind

If we're better off alone

Why did you pick up your phone?

Why did you pick up your phone?
