

## Ghost\*

Jean Dawson

I wish all my days were a little bit longer  
Wish my eyes were a little bit stronger  
Live my life like I'm running from the police  
Live my life like

I wish all my days were a little bit longer  
Wish my eyes were a little bit stronger  
Live my life like I'm running from the police  
Live my life like nobody

Know me  
Know me  
Nobody know me  
Know me  
Know me  
Nobody know me  
Know me  
Know me  
Nobody know me  
Live my life like nobody know me

It's a fine line that I walk when I'm all alone  
Angel on my back, hold me back, halo on my horns  
Anybody there, 'cause I don't see a soul  
I don't get close, people go get ghost when you need 'em

I eat the whole world in one bite  
I leave the cold world with one life  
I eat the whole world in one bite  
I eat the whole world in one bite

I wish all my days were a little bit longer  
Wish my eyes were a little bit stronger  
Live my life like I'm running from the police  
Live my life like nobody

Know me  
Know me  
Nobody know me  
Know me  
Know me  
Nobody know me  
Live my life like nobody know me  
Live my life like nobody know me

I wish all my days were a little bit longer  
Wish my eyes were a little bit stronger  
Live my life like I'm running from the police  
Live my life like
