

# MENTHOL\*

Jean Dawson

Sitting at the end of the road  
Never hear what I'm told  
And like I got everyone watching me  
No one watching me  
Though, I don't need anything  
From no one  
I never felt lonesome  
I find my hope inside my smoke  
My eyes turn red like  
Devilish on a Sunday  
Drivin' fast down a one-way  
Believe you me, I'm a hot boy  
100 degrees, kill a opp, boy  
I don't need no smoke  
Bitch, I am the smoke  
Give me space, I don't show my face  
I don't smile before, run my fade  
I don't run away from my problems  
Ain't got debt to pay  
I ain't been afraid  
Bitch, I lived afraid  
So what's my name?

Fuck up out my face  
I don't smile no more, but we ok  
No, we fuckin' great  
I don't hold my tongue now bite the grape  
Say my fucking name  
Wait, don't say my motherfucking name  
Fuck up out my face  
I don't smile no more, but we all great  
Fuck up out my face  
I don't smile no more, but we ok  
Yeah, we fucking great  
I don't hold my tongue now bite the grape  
Say my fucking name  
Wait, don't say my motherfucking name  
Fuck up out my face  
I don't smile no more, but we all great

That's what you want  
We from the mud  
Fuck is you dying for?  
Stare at the sun  
The loneliest one be making the flowers grow  
Stomp on the garden  
Know what you started  
Started a fire, I started a riot  
I was not invited  
Nothin' but violence, nothin' but sirens  
Moment of silence  
Make me excited in my head  
They ain't tryna play with me

Fuck up out my face  
I don't smile no more, but we ok  
No, we fuckin' great

I don't hold my tongue now bite the grape  
Say my fucking name  
Wait, don't say my motherfucking name  
Fuck up out my face  
I don't smile no more, but we all great  
Fuck up out my face  
I don't smile no more, but we ok  
Yeah, we fucking great  
I don't hold my tongue now bite the grape  
Say my fucking name  
Wait, don't say my motherfucking name  
Fuck up out my face  
I don't smile no more, but we all great  
Great
