Pegasus

Jean Dawson

Super sunset, pussy magnet
I dropped out of college, I was anxious
Past tense, foresight
I didn't cry when she told me 'bout her boyfriend
I lied when she asked if I was in a band
I drive with a.45 in my pants
I would've been a Crip if I'd have followed dad's
Footsteps, no press, I don't play pretend
Light on my side that I make dance
Hit a right, my sight turn infrared
Bitch, I might be the boy in the back
Black Björk, my Lord, I'm a little left
Bitch, I might be the boy in the back
Black Björk, my Lord, I'm a little left
Of the block, make the thugs love Simple Plan
Little cous' on the block, fuck a middle man

Please don't call the police on me
I know they want me dead
Please don't call the police on me
Black bull, I don't fuck with feds
Please don't call the police on me
I know they want me dead
Please don't call the police on me
Black bull, I don't fuck with feds

Please don't call the police on me (With feds)
Please don't call the police on me (With feds)
Please don't call the-
I'm bout to blocka, blocka
(When the police call)
Watch this

Fall asleep, diamonds in my teeth
I don't like creep, they watch me in my sleep
A lot of green, a lot of blue
I'm a big hit, I'm bulletproof
I ride a pegasus, got money mattresses
Got me a bad lil' bitch, she an actor, bitch
She sucking on the dick, she on the TV screen
She make a lot of money and she in love with me

I know they want me dead
Black bull, I don't fuck with feds
I know they want me dead
Black bull, I don't fuck with feds
