Pyrotechnics

Jean Dawson

You ain't got the answers, man!

Glue drip down my face, my skin is stuck to my shirt
Legs drag on the cement, I start bleeding glitter
I be movin' slow, my phone on airplane mode
Don't call me no more, no more

Watching earth explode
(Sky it's fire when I drive)
(All these clouds in the sky)
(And it's fire when I drive)
Watching earth explode
(Sky it's fire when I drive)
(All these clouds in the sky)
(And it's fire when I drive)
Watching earth explode
(Sky it's fire when I drive)
(All these clouds in the sky)
(And it's fire when I drive)
Watching earth explode

End of the times is getting closer in time
I saturate all the colors and that shit burning
And the palm trees need no water
I'll spill a whole bottle for my homies in Nevada
I said, it's hell out here for a dry heat smoke screen
No breeze under the shade, I feel the whole thing
It's five hundred degrees, yo

Watching earth explode
(Sky and it's fire when I drive)
(All these clouds in the sky)
(And it's fire when I drive)
(All the stars in the)
Watching earth explode
(Sky it's fire when I drive)
(All these clouds in the sky)
(And it's fire when I drive)
Watching earth explode
(And it's fire when I drive)
(And it's fire when I drive)
(All these clouds in the sky)
(And it's fire when I drive)
(Its fire when I drive)
(All these clouds in the sky)
(It's fire when I drive)

I-I-I
Don't know what I'm melting for
And I-I-I
Turn to liquid on the street
It's five (Hundred)
Five (Hundred)
Five (Hundred)
Five (Hundred)

I don't really know why every time you roll by
Tires melting to the floor, I don't feel the same no more
I don't really know why every time you roll by
Tires melting to the floor, I don't feel the same no more
(Watching earth explode)
I don't really know why every time you roll by
Tires melting to the floor, I don't feel the same no more

Watching earth explode
(Clouds in the sky)
(And it's fire when I drive)
(All these clouds in the sky)
(And it's fire when I drive)
Watching earth explode
(Watching clouds in the sky)
(And it's fire when I drive)
(All these clouds in the sky)
(And it's fire when I drive)
Watching earth explode
(Watching clouds in the sky)
Watching earth explode
Watching earth explode
Watching earth explode

It's all beautiful
Hell on Earth
Heaven in mind
Diamonds become sand
The sun explodes
It's all beautiful
It is all beautiful
