

SCREW FACE*

Jean Dawson

Funny how we all gonna die
Spider crawling out of my mouth little homey little web of lies
I can't keep a straight face little nothing little terrified
Momma I'm way too high
Momma I'm way too high
Momma I'm way too high
I can see my house from here

Clear eyes won't save me
Body out of body there's a body in my jeep
There's a cop in the mirror, there's a Glock in the seat
There's a very slight chance I have a cup full of lean

Funny how we all gonna die
Spider crawling out of my mouth little homey little web of lies
I can't keep a straight face little nothing little terrified
Momma I'm way too high
Momma I'm way too high
Momma I'm way too high
I can see my house from here

Clear eyes won't save me
Body out of body there's a body in my jeep
There's a cop in the mirror, there's a Glock in the seat
There's a very slight chance I have a cup full of lean

Lean drinking is very bad
Teen drinking is very bad
Teen smoking is very bad
You'll just be
You'll just end up

Sitting in a coffin
Sitting in a coffin

Kind of funny how we all go and die
Everybody be so uptight
Bag of bones in a suit and tie
In a hearse or an office I

I can't stand all these rich folks standing around me
Say
I can't stand all you cannibals
I can't stand all you self important people around me
Sick
You can die tomorrow I'll never know

I'm OK
Off being around you
Off being around you

I'm OK
Off being around you
Off being around you

Met a girl from the valley and her daddy was an actor
Born from a cripin my daddy was a factor

All up in the crib black forces on her mattress
All disrespected I was looking through the cabinets
I've been on demon time 25 eight
Lil boy menace karma come hundred ways
Little boy a demon and a villain and a synonym
For a nigga who don't care if you gonna die

I'm OK
Off being around you
Off being around you

I'm OK
Off being around you
Off being around you

Now sitting in a coffin
Now I ain't even tut
Now sitting in a coffin

Now sitting in a coffin
Now I ain't even tut
Now sitting in a coffin
