

Slow Heavy Ecstasy

What it look like
Is it right now
I want it right now

What it look like
Is it right now
I want it right now

I go missing everyday
I escape
Close my eyes
It's me awake
I go missing everyday
I escape
Close my eyes

I go missing everyday
I escape
Close my eyes
It's me awake
I go missing everyday
I escape
Close my eyes
It's me awake

I go missing everyday
Turn the lights out Imma fade
When it's light out
Imma stand in the shade
My empty head is a rave
Making everybody pick a side
Either you live or you die afraid
This is the second time that I've died
I'm putting neon lights on my grave
There's a different type of high
Running for your life
See if you can fly
Running for your life

I go missing every day
I escape
Close my eyes
It's me awake
I go missing everyday
I escape
Close my eyes
It's me awake
I go missing everyday
