

When the night goes, where do I go?
I live my life with my eyes closed, with my eyes closed
I'm just a boy, ah, oh
I'm just a boy, ah, oh

I go outside and the sun doesn't shine
There is thunder in my steps, make the dead come back to life
There's static in the air
Which one of y'all go try to shake me off my step?
There's an oculus in the sky

I run from evil
I run from people
I run from evil
I run from people
I

When the night goes, where do I go?
I live my life with my eyes closed, with my eyes closed
I'm just a boy, ah, oh
I'm just a boy, ah, oh

Who do you think you are to me?
Little devil got a big smile, little devil got a sharp tail
Little devil like it all bad, yeah, you like it all bad
You a creeper in the window
You a monster under my bed, aye, aye

I-I run-run from evil
I-I-I-I run from people
I-I-I-I run-run from evil
I-I-I-I run from people

When the night goes, where do I go?
I live my life with my eyes closed, with my eyes closed
I'm just a boy, ah, oh
I'm just a boy, ah, oh
