

X-RAY

Jean Dawson

You think you see me
Dancing by the T.V

Always by myself
But my shadow never leave me

You're always dreaming
Trying to find the meaning
What if there's no meaning
Why I'm never sleeping

Why won't you stay around
No one's here to find out

You think you see me
Really
No one
Near me
Think you feel me
Really
What's the feeling
Is it trilling
Think you feel me
Really
What's the feeling
Is it thrilling that I'm a ghost

You think you need me
Nobody need me
Talking to yourself
Screaming at the ceiling

You're always dreaming
Trying to find the meaning
What if there's no meaning
Why I'm never sleeping

Why won't you stay around
No one's here to find out

You think you see me
Really
No one
Near me
Think you feel me
Really
What's the feeling
Is it trilling

You think you see me
Really
No one
Near me
Think you feel me
Really
What's the feeling
Is it trilling

Can you feeling me
Really
What's the feeling
Is it really
Can you feeling me
Really
What's the feeling
Is it really

I'm a ghost
