Full throttle
I'm tipping scales, I'm not the law though
I got to leave with something
Man you know Denzel the motto
Me and the gang just hit the streets just like they was the lotto
Oh got the vandal on auto
They know how crazy I go

So if it's been a minute
You can play the back
If you independent
Come get on the map
If you the opposition
Don't you ever lack
Cuz when I get up in it
You know it's a wrap

1, 2, 3!
All eyes on me
Looking at my team and they got it on 3
1, 2, 3!
All eyes on me
Looking at my team and they got it on 3
1, 2, 3!
Crush the moment
Seize the day
Crush the moment
Seize the day
If I catch you
Run away
Cuz if I catch you
You gon' have to replay

Although you might go seize the day Won't last all day with me
I want the smoke
You know the match up is okay with me
Yeah y'all can play with me
But please don't ever play with me
That phantom always stay with me
This battle imma play for keeps

Go head bring 'em in

(Are you ready?) Think I might be

We telling them come again

And you can have a good night please

When are we not on top

I don't know it's unlikely

It's pedal to the grain

Until it's dirt up on my white tee

If it's been a minute You can play the back If you independent Come get on the map If you the opposition Don't you ever lack Cuz when I get up in it
You know it's a wrap
Cuz when I get up in it
You know it's a wrap

All eyes on me
Looking at my team and they got it on 3
1, 2, 3!
All eyes on me
Looking at my team and they got it on 3
1, 2, 3!
Crush the moment
Seize the day
Crush the moment
Seize the day
If I catch you

Run away Cuz if I catch you You 'gon have to replay

You know why
I'm on that beat like hammertime
I'm in that field to blam the line
And the top I see it every time
I been that beast
I make the haters fall in line
I keep my teammates on they grind
That's because that victory is mine
Oh yeah
I know they shook up when I'm letting down my hair
I need 10 minutes then I'm leavin' levels clear
Oh yeah, tell 'em pull up a chair
I know you feel that fear
We ain't going nowhere

Yeah so clap it up I roll with savages Talk it cuz we can back it up
