

# Alone

Jean Deaux

Have you ever been so in love with somebody that you never wanna be alone?  
(Never, never, never, never)

I said, I said, I said, I said never wanna be alone  
I never wanna be alone  
I said, I said, I said, I said never wanna be alone  
I never wanna be alone

I put it in your hands  
I give you my all  
It's everything we are  
It's bigger than us  
When we feel so small  
I said that I, I never wanna be alone  
I always come home  
Your heart is my drug  
Your love makes me weak

I said, I said, I said, I said, I said - I said  
I never wanna be alone  
I never wanna be alone

I said, I said, I said, I said, I said - I said  
I never wanna be alone  
I never wanna be alone

And no I never wanna be

I hope you don't break me in two  
Cause I only want to be in you  
You make me feel so strong  
That I wanna love you all day long  
And I know how it sounds  
I hit the ground and I run  
And I'm so, I'm so bound  
To all of this love  
I get weak  
I get weak  
I get weak

I never, I never, I never wanna be alone  
I said I never wanna be alone  
Never, never, no  
I never wanna be alone  
Alone, alone, alone, alone, alone, al-o-ne  
I never wanna be alone  
Alone, alone, alone, alone, alone, al-o-ne  
I never wanna be alone

I said, I said, I said, I said never wanna be alone  
I never wanna be alone  
I said, I said, I said, I said never wanna be alone  
I never wanna be alone

Never [x38]
