

Comin Over

Jean Deaux

Bae, I got some fucked up ways, are you willin' to ride? Yeah
A dreamer that slide, yeah, but you got me shy
You been a freak, huh? With a bad appetite (With a bad appetite
)

I'm on your satellite
I'm in your city 'cause I'm good on your side
I'm in your dreams and, nah, you ain't sleepin' right
And I know, 'cause I been in that bed
Don't play with it baby, you know I'm known to leave it cryin'
out
Call that nigga and tell 'em skate, 'cause he can't kick it her
e
You could take a beatin', I challenge all your stamina
If you say you need me, I'd pull up, tell you ''Make it clear''

Man, quit your whinin', I ain't finna fight (I ain't finna fight)
I could send a flight, what you on tonight? (What you on tonight?)
Is you comin' over?

Is you comin'- comin' over?
Is you comin' over?
Are you comin'- comin' over?
It's something comin' over me
Is you comin'- comin' over?
Are you comin' over?
Are you comin'- comin' over?
It's something comin' over me

Still, I'm the heartbreak heir, into midnight air
To get in your hair, know I keep this, hell yeah
And if they can't tell, then I won't never tell them
'Cause when I kill, know you can't go nowhere
Okay, okay, I start it pacin', drive you crazy, no Miss Daisy
Pull your card and you can't play me
Save it for that nigga baby, bet it on me
In front of the mirror, let's see who you are
Then I give you the floor 'cause you the superstar

Ooh, what he don't know, won't kill him, that's for sure
Go and lean up on my shoulders
And tell me baby, is you comin' over?

Is you comin'- comin' over?
Is you comin' over?
Are you comin'-
