

Equilibrium

Jean Deaux

He told me I'll never give up on my girl
I'm gone wrap u round and make u to my world
Pulled me under, he fully submerged my skin
He said "darlin' what you doin?
Let me in...
I'm stuck on the surface
I know u not perfect
I wish you were worth it
Let me be a needle in your veins
I know u not perfect
But baby your worth it
Then he hung up in my face
And never called me back again
Come back to me
Oh you're all I need
I can barely
I can barely breathe oh

I don't wanna cry alone
U got me feeling so numb
Oh could u feel me lately?
U got me going crazy
I don't wanna cry alone
I don't wanna cry alone
I don't wanna cry alone
Got me waiting by the phone
I don't wanna cry no long
I don't wanna cry no more
I don't wanna cry no more
Birds don't sing
Don't fly no more
Don't fly no more
Don't fly no more
Don't fly no more
Don't lie no more to me oh
He say "ya not perfect"
But baby your worth it
Then he hung up in my face
And never called me back again

I don't wanna cry alone
I don't wanna cry alone
Got me so alone
Got me feeling so numb
I'm going crazy
I need u baby
Can u feel me lately
Can u feel me
