

Say Yeah

Jean Deaux

Anywhere but where it ain't enough
You see, I'm not convinced, you gotta move me
Anywhere, whichever, how you want
That's all I want
(But you treatin' me wrong)
You treat me wrong

You say, "Save it for me"
That's dedication, but my pride...

If I call you on you
And unlock the door
We got things to do
And they must be done alone

Ooh, I like when I get... (to please ya)
My eyes on you
Just bring it to me
I wanna (please ya)

I like when (ya teasing)

Ooh, I like when I- (feigning)
Get (to please ya)
My eyes on you
(I need it)
Just bring it to me
I want it for pleasure

Say yeah (say yeah)
Say yeah (say yeah)
Say yeah (say yeah)

Now I said too much
You got me revvin' up
Work the wrist
I love when you direct the angles
(Workin' on my angles)

Set it up!
Give you the rundown and every step
Trying new things and the heavy stuff
That is my problem-can't get enough
Let's run it back, I got plenty more
I'm the coach, tell you "get in there!"
Tell me what you in it for
Some things we can't ignore
Yeah!
Yeah!
Whoa...

Ooh, I like when I get... (to please ya)
My eyes on you
Just bring it to me
I wanna (please ya)

I like when (ya teasing)

Ooh, I like when I- (feinding)
Get (to please ya)
My eyes on you
(I need it)
Just bring it to me
I want it for pleasure

Say yeah (say yeah)
Say yeah (say yeah)
Say yeah (say yeah)
