

## Situations (Interlude)

Jean Deaux

A new sheriff in the town of situations  
Thanks so much for your patience  
You're getting lost in my fragrance  
Let's make a mistake

Chemistry down like it was fate  
It might not last. So, what you're waiting for?  
You like my favorite lore  
Tonight, I'm only yours

So, what's to do?  
Would you dare scratch the surface?  
Don't get it confused  
With what you used to

No. I thought I ain't have time for situations  
But this situation  
It's just different

No. I thought I ain't have time for situations  
But this situation's changed

Alright  
That was Jean Deaux  
Brand-new  
Situations  
We are locked-in tonight everywhere on radio  
Play a brand-new game  
Stay tuned to what be back right after this
