

# Thinkin

Jean Deaux

Time is of the essence  
And like a science  
Just in your presence  
I feel it flying  
But when we're close  
It slows down  
Talk to me  
I can see  
It's so much on your mind

Thinking, thinking, thinking, thinking  
If we wine  
How your touch gon' feel with mine?  
I been drinking  
Thinking, thinking, thinking  
I'm reminded  
We'll never know if we don't try  
Can I know  
What these dreams are made of?  
Can I know  
What these dreams are made of?

Time is of the essence  
I'm spending it in your presence  
Impatient  
Hotel, a strip in Vegas  
Dreams of loving you

Blessing in disguise  
Nod to it  
I see it in your eyes  
How many times I gotta tell you I'm all in, all in, all in?  
But see: a nigga shot calling  
Balling, balling  
What you need from me?  
What you need from me?  
From me?  
From me?

No way  
Where you wanna be?  
We can go away  
Like your words when you come my way  
Yeah. We parted ways 'cause you get me going  
It's so easy. Believe me  
Our seasons don't change  
What you're running from  
You know you can tell me  
It was always love that you would await

Thinking, thinking, thinking  
Can I know  
What these dreams are made of?  
Can I know?  
Can I know  
What these dreams are made of?  
Thinking, thinking, thinking

Can I know  
What these dreams are made of?  
Can I know?  
Thinking, thinking, thinking  
Can I know  
What these dreams are made of?

No way  
Where you wanna be?  
We can go away  
Thinking, thinking, thinking

No way  
Where you wanna be?  
We can go away  
Thinking, thinking, thinking
