

# One White Rose

**Jean Shepard**

We danced in the night dear a night of delight dear and I gave  
a white rose to you  
But then in the dawn dear the sun found you gone dear  
A white rose may crashed him to do  
His love was a rose cast away but what was one rose when you ha  
d a bouquet  
You laughed at my caring still I go on wearing a white rose in  
my heart for you  
  
His love was a rose...
