

Ablaze

Jeangu Macrooy

I'm in the dark
Lights are out
I don't see you
But I still feel you

I gotta know I'm not alone
You gotta show me how bad you want me
Cause I get down on my knees
And beg you baby please

Set my soul ablaze
Make me feel alive
Show me what I've been missing
All this time
Set my soul ablaze
I wanna breathe you fire
Let your love consume me eternally

My love, [?] me just a little lonely, a little unsteady
I ain't no fool and that's for sure
I don't play love, ain't no game no
Cause I get down on my knees
And beg you baby please

Set my soul ablaze
Make me feel alive
Show me what I've been missing
All this time
Set my soul ablaze
I wanna breathe you fire
Let your love consume me eternally
