

# Circles

Jeangu Macrooy

Blood on my bare feet  
I've been walking  
I've been running  
Miles and miles in circles

Fear of what I know  
Of what I don't  
Of what I should  
Going round and round in circles  
And this is not how I imagined life at twenty-one

I thought that I be stronger now  
I thought that I be wiser now  
I thought that I be whole by now  
Ohhh  
I'm running in circles  
I'm running in circles  
And I'm back where I begin

Lies I've heard before  
Out of my own mouth  
I think I'm stuck  
All these goddamn circles

Love where are you now  
I need you here  
I need your strength  
To break out of these circles  
And this is not how I imagined life at twenty-one

I thought that I be stronger now  
I thought that I be wiser now  
I thought that I be whole by now  
Ohhh  
I'm running in circles  
I'm running in circles  
And I'm back where I begin

Show me the way  
That leads me straight to sanity  
Ohhh show me the way  
That leads me straight to sanity  
Ohhh show me the way  
That leads me straight to sanity  
  
Ohhh  
I'm running in circles
