

High On You

Jeangu Macrooy

I could roll me a joint
And smoke it up
'Till I can't stand straight any more
I could pour me some wine
And drink it up
'Till everything's spinning around
But none of that can take me there
I'm still feeling low
But none of this can take me there
I don't wanna settle for less no more

I'd rather be high (high), high, high on you (high on you)
I'd rather be high (high), high, high on you (high on you)

I could try to go out and dance all night
Wake up next to somebody else
Or I could pop some more pills
Just to feel a rush, to feel my blood run faster
But none of that can take me there
I'm still feeling low
None of this can take me there
I don't wanna settle for less no more

I'd rather be high (high), high, high on you (high on you)
I'd rather be high (high), high, high on you (high on you)

'Cause only you can lift me off the ground
Turn my body out
Make me feel like I'm flying high (high), high, high on you (high on you)
I don't fuck with artificial remedies
But I wanna feel you underneath my skin

I'd rather be high, high, high on you
I'd rather be high, high on you, high on you baby
I'd rather be high (high), high, high on you (high on you)
I'd rather be high (high), high, high on you (high on you)

Only you can lift me off the ground
Turn my body out
Make me feel like I'm flying high (high), high, high on you (high on you)
