

# Hold Me

Jeangu Macrooy

Hold me  
I wanna know what it's like  
To be wanted  
I need you to trust me  
Hold me  
Like I'm your one and only, mmmh  
Hold me like you still believe in love

Even if I'm just a temporary cure  
To ease the lonely nights  
Spare me the confusion  
Give me the illusion  
This  
Could be more  
This could be more

Hold me  
I wanna know what it's like  
To be wanted  
I need you to trust me  
Hold me  
Like I'm your one and only  
Hold me like you still believe in love

I know that by tomorrow  
I won't be on your mind  
I know that probably next week  
You'll be dancing with somebody else

Hold me  
I wanna know what it's like  
To be wanted  
I need you to trust me  
Hold me  
Like I'm your one and only  
Hold me like you still believe  
Hold me like you still believe  
Hold me like you still believe

Hold me like you still believe  
Hold me like you still believe  
Hold me like you still believe

Hold me like you still believe  
Hold me like you still believe  
Hold me like you still believe

Hold me like you still believe  
Hold me like you still believe  
Hold me like you still believe
