

# You Don't Need Me

Jeannie Seely

[Chorus]

You don't need me  
But you will when it's over  
You don't need me but you will  
Right now you're walking in high, high [?]  
And you don't need me but you will

[Verse 1]

You've forsaken true love  
You've taken some new love  
You don't need me now  
But you will  
You think she's the last one  
She's a fast one  
And she'll leave you  
Like you're standing still

[Chorus]

You don't need me  
But you will when it's over  
You don't need me but you will  
Right now you're walking in high, high [?]

And you don't need me but you will

[Verse 1]

You've forsaken true love  
You've taken some new love  
You don't need me ha  
But you will  
You think she's the last one  
She's a fast one  
And she'll leave you  
Like you're standing still

[Chorus]

You don't need me  
But you will when it's over  
You don't need me but you will  
Right now you're walking in high, high [?]  
And you don't need me but you will  
No, you don't need me but you will
