

## April Slumber

Jebediah

Coming around where we used to be found  
Troubling teens with a middling frown  
Walkin' down that road  
Walkin' down that road

And you wouldn't believe the ghosts you meet  
Hiding away down on memory street  
Walkin' down that road  
Walkin' down that road

Every minute there's a new one born  
And every moment we were April slumber  
Anyway, here comes another year  
Any day it could be that much better, yeah

And I hear 'em all say as the pavement gives way  
Life wasn't bad in suburban decay  
Walkin' down that road  
Walkin' down that road

Every minute there's a new one born  
And every moment we were April slumber  
Anyway, here comes another year  
Any day it could be that much better, yeah

Oh, now there's nothing left  
But heavy air  
From some long distant dream

Every minute there's a new one born  
And every moment we were April slumber  
Anyway, here comes another year  
Any day it could be that much better, yeah
