

Closing Time

Jebediah

The world is a suck-up
Just spinnin' around
And maybe I fit now
I really touch the ground
And lonely as I get
With my patch of dirt
It fades in importance
What's it take to hurt?

Oh, well we freeze, freeze in the wintertime
And make love, love in the spring
And we burn, burn in the summertime
Sheddin' our skin

I cleaned out the upstairs
To make some more space
And 'round off the edges
It's such a rough place
I fall like a leaf now
From the slightest breeze
Survival of the strong
Doesn't help me

Oh, well we freeze, freeze in the wintertime
And make love, love in the spring
And we burn, burn in the summertime
Sheddin' our skin

Oh, well we freeze, freeze in the wintertime
And make love, love in the spring
And we burn, burn in the summertime
Sheddin' our skin
