

Motivation

Jebediah

On a mission of mercy now
And my motives are clear
What could be better
Better than that?
And I don't like to talk too loud
When there's so much to say

What could be better
Better than that?
Oh, nothing, no nothing
Is better than that, than that, than that

Be my motivation shooting up my spine
Making it easy to lay it all on the line
No more hesitation weighing on my mind
Making it easy to lay it all on the line

And I'm not going to sleep tonight
When there's nothing to do

What could be better, better than that?
Oh, nothing, no nothing
Is better than that, than that, than that

Be my motivation shooting up my spine
Making it easy to lay it all on the line
No more hesitation weighing on my mind
Making it easy to lay it all on the line

Be my motivation!
Be my motivation!
Be my motivation!
