

Start Again

Jebediah

I make believe 'til I'm a different man
These thoughts come out to find me
I make believe until you understand
When loneliness surrounds me

All I'm saying
We don't have to fade away
All I'm saying
We don't have to fade, have to fade away

And if you try it
You can deny it
Watch it die and
We can start again
And if you try it
You can deny it
Watch it die and
We can start again

I make believe I'm not a desperate man
Foolish for your attention
Grist for the mill until you know I am
Hard up and not to mention

All I'm saying
We don't have to stay the same
All I'm saying
We don't have to fade, have to fade away

And if you try it
You can deny it
Watch it die and
We can start again
And if you try it
You can deny it
Watch it die and
We can start again
And if you try it
You can deny it
Watch it die and
We can start again
And if you try it
You can deny it
Watch it die and
We can start again

And if you try it
You can deny it
Watch it die and
We can start again
And if you try it
You can deny it
Watch it die and
We can start again
And if you try it
You can deny it
Watch it die and

We can start again
And if you try it
You can deny it
Watch it die and
We can start again

Start again
Start again
Start again
Start again
