Go Insane

Jebroer

You make me sad, you make me scared
You are my worst nightmare
Thing's changed, I can't pretend
I'm about to go insane

All the noise in my head
I want it to go away
When the pain will ever end
I want to take a break

Getting dirty money
Because we just like the smell of it
People try to stop us
But we will never quit
We are going straight to hell with this
Keep throwing bombs

All the noise in my head
I want it to go away
When the pain will ever end
I want to take a break

Getting dirty money
Because we just like the smell of it
People try to stop us
But we will never quit
We are going straight to hell with this
Keep throwing bombs
Turn up

Turn up

We are going straight to hell with this
Keep throwing bombs
Turn up
